Chapter 2 Collective Investment Schemes

Art. 7 Definition

¹ Collective investment schemes are assets raised from investors for the purpose of collective investment, and which are managed for the account of such investors. The investment requirements of the investors are met on an equal basis.

² Collective investment schemes may be open or closed-ended.

³ The Federal Council may stipulate a minimum number of investors in accordance with the legal status and target group. It may authorise collective investment schemes for a single qualified investor (single investor fund) in accordance with Article 10 paragraph 3 in conjunction with Article 4 paragraph 3 letters b, e and f of the Financial Services Act of 15 June 2018¹⁵ (FinSA).^{16 17}

⁴ In the case of single investor funds, the fund management company and the investment company with variable capital (SICAV) may transfer the investment decisions to the single investor. The Swiss Financial Market Supervisory Authority (FINMA) may exempt them from the duty to obtain authorisation in accordance with Article 14 paragraph 1 of the Financial Institutions Act of 15 June 2018¹⁸ (FinIA) or from the duty to subject themselves to supervision recognised under Article 36 paragraph 3 of this Act.¹⁹

⁵ Collective investment schemes must have their registered office and head office in Switzerland.²⁰

Art. 8 Open-ended collective investment schemes

¹ Open-ended collective investment schemes may be in the form of a contractual fund (Art. 25 et seq.) or SICAV (Art. 36 et seq.).

² With open-ended collective investment schemes, investors have either a direct or indirect legal entitlement, at the expense of the collective assets, to redeem their units at the net asset value.

³ Each open-ended collective investment scheme has its own fund regulations. In the case of contractual funds this is the collective investment contract (fund contract), and in the case of SICAVs it is the articles of association and the investment regulations.
