

Guidelines

for **FinTech licence** applications pursuant to Article 1*b* of the Banking Act

Version of 5 May 2023

Purpose

This document is intended to act as a guide for the convenience of applicants and to facilitate the presentation of applications submitted by them. It does not give rise to any legal claim. These guidelines highlight the information and documents an applicant must usually submit when making an application. The guidelines do not exclude the possibility that the applicant may submit additional information or that the Swiss Financial Market Supervisory Authority FINMA may request further details and documents. Applications are to be submitted in one of Switzerland's official languages or in English, whereby the article of association, the organisational regulations and any other documents which are subject to approval must be submitted in one of Switzerland's official languages. If an application is submitted by a legal representative, this person's authorisation must be submitted.

Persons pursuant to Article 1*b* of the Banking Act (BA; SR 952.0) are permitted to accept public deposits of up to 100 million Swiss francs or crypto assets pursuant to Article 5*a* of the Banking Ordinance (BO; SR 952.02) but may not invest them or pay interest on them. FINMA licenses persons pursuant to Article 1*b* BA and supervises them after a licence has been granted.

Any change to the basis on which the licence was granted must be reported to FINMA. In the event of material changes, approval must be obtained from FINMA before continuing with operations (Art. 8*a* BO).

A person pursuant to Article 1*b* BA may not begin operations until a licence has been granted by FINMA. It is an offence to engage in activities which require a licence without being in possession of the said licence (Art. 44 Financial Market Supervision Act [FINMASA]; SR 956.1). The same applies to providing false information to FINMA or an audit firm (Art. 45 FINMASA).

II. Changes

All changes to matters affecting licensing require prior authorisation or approval by FINMA.

The following in particular require approval (the list is not exhaustive):

- Changes relating to key documents (particularly the articles of association and organisational regulations)
- Changes relating to holders of qualified participations
- Changes in the persons entrusted with the administration and management of the business
- Changes relating to the organisation
- If planned: changes to the technical set-up regarding the storage of crypto assets
- Changes relating to internal corporate governance regulations
- Changes relating to activity and non-core activities
- Changes relating to the outsourcing of core services

The licence application must contain a detailed justification (including risk analysis). All relevant information must be documented, and changed documents must also be submitted with changes tracked. Depending on the nature of the changes, it may be advisable to discuss them with FINMA in advance.
